CARING

COMMUNITY ENGAGEMENT DEMONSTRATES OUR CARING VALUE

We act with integrity and compassion to support patients, customers, our communities and each other.

Our Caring Value Ties All of Our Work Together

GLOBAL

Boston Scientific is committed to transforming lives through our focus on advancing possibilities in health, education and communities. We are proud of our employees who volunteer around the globe to improve the communities where they live and work. In 2016, over **300** events took place in **21** countries!

HEALTH

Our priority is to decrease health disparities and advance possibilities for the underserved. We achieve this by ensuring access to quality care and supporting prevention and awareness programs to help people reduce their risk for chronic disease. In 2016, we collaborated with VT Seva, Project HOPE, and American Heart Association on global health programs.

COMMUNITY

We envision what's possible for communities where our employees live and work by giving our time and resources to positively impact the lives of others and to support employee engagement. In 2016, over **900** organizations were supported through employee driven Boston Scientific initiatives.

Employees participate in MN volunteer week by harvesting plants and maintaining the grounds of a local community farm

MATCHING GIFTS

Boston Scientific launched an Employee Matching Gifts program in the US in 2016 to further its commitment to helping nonprofit organizations and schools thrive. Through this program, Boston Scientific employees supported disaster relief efforts, GivingTuesday, and organizations they care about most. A global launch of this program is planned for 2017.
